

known as Canyon Day, in which students and community members come together to clean up and restore the ecosystem of the natural canyon and creek that meanders through campus.

It is said the true mark of a Reed education is not conventional success, but a certain "quality of thought, curiosity, and willingness to challenge received wisdom." For a hundred years Reed has remained a hallmark of rigorous scholarship and intellectual pursuit. I am honored to represent this distinguished institution and look forward to celebrating future landmark occasions.

MOTION TO CONCUR

HON. HENRY A. WAXMAN

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 22, 2011

Mr. WAXMAN. Madam Speaker, I rise in opposition to H.R. 2608, the Continuing Resolution for the 2012 fiscal year.

This year, our country has faced perhaps the worst string of natural disasters in a generation. Flooding in the Upper Midwest and Northeast, tornadoes in the Midwest and Southeast and wildfires in Texas have caused an estimating \$35 billion in property damage in 2011. These disasters are yet another indication that our burning of dirty fossil fuels is causing our climate to change, resulting in more frequent and destructive severe weather events.

The government has a responsibility to aid the victims of these events by funding cleanup and recovery efforts. But the Continuing Resolution that we are considering today pays for disaster relief by slashing funding for an important clean energy technology program—undercutting the very solutions that are an essential part of combating the causes of climate change and building a clean energy, 21st century economy.

This kind of reasoning could make sense only in Washington. It makes as much sense as cutting vaccine funding to pay the costs of a measles outbreak, or cutting funds for aerial fire retardant chemical stocks in order to pay for the horrific fires in Texas.

In addition, this program, the Advanced Technology Vehicles Manufacturing Program (ATVM), has already created jobs for over 40,000 Americans. The Center for Automotive Research credited the program with bringing the production of the Ford Focus, a vehicle that gets 40 miles-per-gallon, from Mexico to Detroit. If Congress simply leaves ATVM alone, it will create employment opportunities for another 35,000 to 40,000 Americans in the heart of the manufacturing belt, by the end of the year.

In the past, Congress has always come to the aid of those affected by disaster by paying for federal recovery efforts without conditions. The Bush Administration requested supplemental emergency disaster funding on eight occasions, and each time Congress agreed, often passing these measures with large bipartisan majorities.

This time should be no different. This disaster relief offset should be removed. This is not the way we care for our fellow Americans in a disaster. We're better than that. I urge my colleagues to support continued funding for

clean energy technology to create jobs and invest in a 21st century economy and oppose this bill.

TRANSPARENCY IN REGULATORY ANALYSIS OF IMPACTS ON THE NATION ACT OF 2011

SPEECH OF

HON. RUSH D. HOLT

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 22, 2011

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2401) to require analyses of the cumulative and incremental impacts of certain rules and actions of the Environmental Protection Agency, and for other purposes:

Mr. HOLT. Mr. Chair, I rise in opposition to the TRAIN Act. This misguided legislation would undermine the Environmental Protection Agency's ability to enforce the Clean Air Act and significantly limit the federal government's ability to ensure that the air we breathe is safe and pollution-free.

Some in the Majority have used the title of this legislation to refer to EPA's so-called regulatory train wreck. Well, the TRAIN Act amounts to a wrecking ball for public health protections.

Sadly, the TRAIN Act is the latest in a long line of bills from the majority that puts big polluters before the health and safety of the American people. From the Dirty Air Act that would remove EPA's statutory authority to regulate carbon pollution to legislation that removes accountability for offshore drilling operations, the majority seems intent on rolling back programs that preserve our environment, protect our public health, and grow our economy.

For forty years the Clean Air Act has been successful in protecting public health and preventing deaths from respiratory disease because it was written to follow science as science evolved. The success of the Clean Air Act is because its regulations are based in science. Legislators shouldn't pretend to be scientists.

I urge my colleagues to vote no on this bill.

TRANSPARENCY IN REGULATORY ANALYSIS OF IMPACTS ON THE NATION ACT OF 2011

SPEECH OF

HON. SANDER M. LEVIN

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 22, 2011

The House in Committee of the Whole House on the state of the Union had under consideration the bill (H.R. 2401) to require analyses of the cumulative and incremental impacts of certain rules and actions of the Environmental Protection Agency, and for other purposes:

Mr. LEVIN. Mr. Chair, I rise in opposition to the TRAIN Act and urge the House to reject it.

The Clean Air Act is one of this nation's most important laws. Over the last 40 years, it has greatly reduced pollution across the

length and breadth of this country, allowing all Americans to live longer, healthier lives. There is a tendency to take the steady air quality improvements our country has made for granted. In the course of my trade duties on the Ways and Means Committee, I have visited many countries. I've been to foreign cities where the air is so thick with smog that some days you can't see buildings that are just a few blocks away. The air is hard to breathe because it is thick with ozone and particulate pollution. This is not what we want here in America.

The legislation before the House today has many shortcomings. I especially object to the provisions of this bill that delay two important Clean Air rules. The bill would delay the Mercury and Air Toxics Standards Rule as well as the Cross-State Air Pollution Rule until at least 2013, and very likely much longer than that since the bill eliminates all statutory and court-ordered deadlines for both rules.

Congress ordered EPA to take action to curb mercury and other air toxics 21 years ago, and more than two decades later we're still waiting for action. This is particularly a problem in the Great Lakes region. Mercury is thrown into the air by coal-burning power plants hundreds of miles away and bio-accumulates in Great Lakes fish. Mercury is especially a health risk for pregnant women and infants because exposure to mercury has been linked to nervous system damage.

The cost of further delay of the Mercury and Air Toxics Rule is high. For each year we delay, there will be up to an additional 17,000 premature deaths; 11,000 non-fatal heart attacks; 120,000 cases of aggravated asthma, and 12,200 hospital and emergency room visits. The Republican leadership of the House appears to be comfortable with continued inaction on air toxics. I am not. We should vote this bill down.

IN HONOR OF SISTER MAUREEN DOYLE, OSU

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 23, 2011

Mr. KUCINICH. Mr. Speaker, I rise today in honor of Sister Maureen Doyle, who is being recognized for 25 years of service as the director of the Urban Community School.

Sister Maureen Doyle was born and raised in the Cleveland area. She is an Ursuline Sister of Cleveland. Sister Maureen earned her undergraduate degree in elementary education from St. John College of Cleveland and a Masters of Education from Boston College. She began her career as an educator in 1973 and has worked for St. Charles School, St. Ann School, St. Clare School and is currently serving in her 26th year as the director of Urban Community School, UCS.

Under Sister Maureen's leadership, UCS has thrived at providing an individualized, Catholic/Christian, quality education to the children of Cleveland's Near West Side neighborhoods; primarily to those who, otherwise, might not have access to such an education. In 1987, during her first year as director, UCS was the first school in Cleveland to receive the Excellence in Education Award from the U.S. Department of Education. In 2005, Sister Maureen led UCS' transition to a new, larger

facility that accommodates 50 additional students. As a result of the expansion, UCS also added an art program, art room, science lab and full-time counseling program. Because of her dedication to the students of UCS, Sister Maureen has been awarded with the Diocese of Cleveland Catholic School Excellence Award, the YWCA Greater Cleveland Women of Achievement Award, an Honorary Degree from John Carroll University and the Irish Good Fellowship Award.

In addition to her work with UCS, Sister Maureen is an active member of the Greater Cleveland community. She has been involved with the Boys & Girls Club, City Club of Cleveland, Laurel School and St. Ignatius High School. Currently, Sister Maureen is a member of the Education Committee for the Cleveland Museum of Art and Greater Cleveland Habitat for Humanity.

Mr. Speaker and colleagues, please join me in honoring Sister Maureen Doyle as she is recognized for her contributions to the Cleveland's Near West Side community as director of the Urban Community School.

RECOGNIZING BRENDA WELBURN

HON. JARED POLIS

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Friday, September 23, 2011

Mr. POLIS. Mr. Speaker, I rise today to recognize the retirement of Brenda Welburn as the Executive Director of the National Association of State Boards of Education (NASBE).

Throughout Brenda's outstanding career with NASBE, she dedicated herself to supporting not only state policymakers across the 50 states but, more importantly, students all across the country.

Brenda spent many years at the helm of NASBE, serving as a critical resource for state policymakers elected and appointed to State Boards of Education. During my six years of service on the Colorado State Board, Brenda and NASBE were instrumental in supporting me and all of the board in our universally shared goal of improving public education. I will never forget how we worked together to implement the requirements of No Child Left Behind and to integrate its requirements with Colorado's education accountability systems. With Brenda's help, we managed to navigate school finance decisions while communicating the benefits of public school choice, such as online learning and charter schools, and connecting traditional K–12 programs with college and careers.

Throughout her remarkable tenure at NASBE, Brenda has served as a steady and thoughtful leader, actively assisting state board members across the country. Her influence has been felt coast to coast, and because of her steadfast commitment to establishing and maintaining effective education policies, children across the country have been given a greater chance to succeed.

Brenda, we will miss you, but we thank you for your dedicated service and congratulate you on your retirement.

CONGRATULATING TAIWAN'S CENTENNIAL NATIONAL DAY

HON. THOMAS J. ROONEY

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 23, 2011

Mr. ROONEY. Mr. Speaker, I rise today to congratulate the people of Taiwan as they celebrate their Centennial National Day. The day is also to commemorate the 1911 Wuchang Uprising, a milestone of China's development and a new chapter which led to the end of the Qing Dynasty.

This National Day allows the people of Taiwan to gather together and celebrate their shared heritage, and provide them the unique opportunity to honor their past and present culture and achievements. Following President Ma Ying-jeou's annual address, there will be a parade of floats from 10 counties and various government agencies. A series of cultural activities and exhibitions, including a nationwide design competition and movie festival will be featured along with a traditional puppet display.

The historic ties between the United States and Taiwan run deep, and they continue to unite us. I hope our nation will continue its efforts to promote educational and cultural exchanges so that younger generations may enjoy and continue the legacy of our important relationship.

I look forward working together to deepen our relationship, and I wish the families celebrating this occasion a safe and happy holiday.

NATIONAL DAY OF REMEMBRANCE FOR MURDER VICTIMS

HON. TED POE

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 23, 2011

Mr. POE of Texas. Mr. Speaker, on Sunday, September 25th we recognize the National Day of Remembrance for Murder Victims.

Murder extinguishes the hopes and dreams of tens of thousands of victims each year, and an untold number of fellow Americans now live, daily, with the absence of a loved one.

Murder affects each and every one of us, and every community nationwide.

We must all work diligently to prevent the violence that destroys lives and devastates families.

A National Day of Remembrance for Murder Victims offers Americans the opportunity to honor the memories of murder victims and recognize the impact of murder on surviving family members and friends.

A join victim service programs, criminal justice officials, and concerned citizens throughout America to remember the tragedy of murder, honor the courage of survivors, and vow to do whatever we can to help survivors rebuild their lives.

On the National Day of Remembrance for Murder Victims we reaffirm this Nation's commitment to respect as well as support crime victims' rights and needs throughout the year;

And that's just the way it is.

TO ACKNOWLEDGE SEPTEMBER AS CHILDHOOD OBESITY AWARE- NESS MONTH

HON. JAMES P. MORAN

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, September 23, 2011

Mr. MORAN. Mr. Speaker, I rise today to acknowledge September as Childhood Obesity Awareness Month. Increasing awareness of this pervasive problem can help curb the increase in this epidemic and help families and children make better choices in the foods they eat and their overall lifestyle.

Over the past three decades, the rate of childhood obesity has risen to crisis proportions. According to the Centers for Disease Control and Prevention, 32 percent of children are overweight, 16 percent are obese, and 11 percent are extremely obese. In some racial and ethnic groups, in low-income populations, and among recent immigrants, the rates of obesity among children and youth are alarmingly high.

The health consequences for these children are very serious. They are at much greater risk of developing diabetes, heart disease, high blood pressure, asthma, and other diseases than their non-obese peers. Many children are subjected to ridicule and bullying that damages their emotional well-being. Beyond the tragic consequences for the children themselves are the effects on the American economy. Obese children are at risk of growing into obese adults who do not participate fully in the workforce because of employment discrimination, lost productivity due to illness and disability, and premature death. If the childhood obesity epidemic continues at its current rate, conditions related to type 2 diabetes, such as blindness, coronary artery disease, stroke, and kidney failure, may become common conditions of middle age. Health care costs for this population are likely to rise to an extent we are only now beginning to appreciate.

As a nation, we need to make sure that our young people receive a consistent message that encourages them to adopt healthful eating patterns; helps them to understand their nutritional needs; and teaches them healthy lifestyle choices, especially relating to physical activity.

We can, and we simply must, make addressing childhood obesity a national priority. Not only must we help the children who are already affected, we must not fail to protect another generation. Health is more than the absence of physical or mental illness—it is also the extent to which children and youth have the capacity to reach their full potential.

REAFFIRMING THE STRONG U.S.- ISRAEL PARTNERSHIP IN PUR- SUIT OF LASTING MIDDLE EAST PEACE

HON. JERRY F. COSTELLO

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Friday, September 23, 2011

Mr. COSTELLO. Mr. Speaker, I rise today to oppose Palestine's bid for statehood at the United Nations (U.N.) and to encourage the
